

Dear Physician and Advanced Practice Provider (APP) Colleagues,

We are currently conducting a global online survey to explore health care providers' knowledge, attitudes, awareness, and perceptions of stigma related to Alcohol-Related/Associated Liver Disease (ALD). This survey aims to gain a better understanding of how clinicians perceive ALD and the factors that may influence their approach to diagnosis, management, and patient care.

This is a one-time survey. You will not be re-contacted, and participation is entirely voluntary. No personal information will be collected, and all responses will remain strictly **anonymous** and confidential. The survey should take no more than **5-10 minutes** of your time.

Thank you in advance for your time and input!
